Distribution

Representing 50+ manufacturers, Aquateck is a distributor for all pumps and water specialties equipment. Proudly serving you with six locations across Canada (and growing), with each carrying a large selection of products.

Manufacturers' Rep

Aquateck is a manufacturers' representative for some of the largest pump companies in the world.

Consulting

Working closely with industry professionals, we place the right product into the right job! We assist engineers, mechanics, plumbers, well drillers and more, with products big and small.

Camp Services

When a camp needs water or wastewater systems, Aquateck is one of the best and most knowledgeable companies in Canada to get you what you need.

Startup and Commissioning

From small well systems to 1400 HP line shaft turbines, we have the product experts to start up anything we sell. Capable of completing a wide range of testing and reports, Aquateck is trusted to be on-site when it matters most.

Water System Design

Municipal, Commercial, and Residential - Aquateck has a wealth of experience assisting engineers and industrial specialists designing systems for these markets.

Water Treatment System Design

Have a water sample? Need one tested? Not sure what equipment to install or why? Aquateck can help you for all residential and commercial water treatment applications. From softeners to reverse osmosis, we have you covered.

Repair and Service

Any size, any horsepower. We service all makes of pumps and water treatment equipment.

Warranty Depot

Aquateck is a full warranty depot for almost every product we sell!

Wastewater Design

System designs for residential, commercial and municipal projects.

Pump and Package Builds

Whether it is coupling a pump to a motor, pre-programming a VFD, or assembling a sewage package for plug and play on-site, Aquateck can put together any imaginable package.

Serving the following industries:

- Water Well
- Commercial
- Oil and Gas
- Residential
- Irrigation
- Municipal
- Industrial
- Fire
